

THINK SMART TO TAKE THE STRESS OUT OF HOME OWNERSHIP

Buying or owning a home comes with its share of stress and responsibilities. One way to deal with that stress is by thinking smart - that is opting for a SMARTHOME.

1. WHY GO SMART

LIVING IN A SMARTHOME GIVES YOU FULL CONTROL OVER HOW MUCH WATER & ELECTRICITY YOU USE

So you can manage your consumption and reduce it to achieve more.

Saving on these expenses means more cash which means

MORE MONEY TO SPEND ON THE THINGS YOU WANT

The possibilities of what you can do with all the money you can save are endless.

K'CHING!

2. SMARTHOMING: SIMPLE WAYS TO START SAVING

As a start, you can apply some smarthoming, no-cost habits that will save you money.

3. HOW TO GET STARTED

TAKE SHORTER SHOWERS

This asks less of the planet while reducing your water bill.

You could even go further by installing a

LOW-FLOW SHOWER HEAD

which uses less water (which means less electricity too) and increase your savings.

THESE ARE SMALL CHANGES WITH BIG RESULTS.

4. TAKE YOUR SAVINGS UP A NOTCH!

Switching appliances off when you leave a room reduces stress both on the planet and your pocket.

Another tip is to fit eco-friendly light bulbs. This is another small change that can open up a whole world of possibilities with the big savings it can bring.

5. GET READY TO UPGRADE YOUR LIFE!

SMARTHOME fittings like these pay you back by giving you lower water and electricity bills, higher bank balances and more options for you.

6. AN INVESTMENT IN YOUR FUTURE

A great advantage of living in a SMARTHOME is that when the time to sell comes, the home has maintained its great value for you.
