

RENTING? START SAVING BY SMARTHOMING!

1. A FEW SMALL CHANGES = BIG SAVINGS

It is a widely held belief that you can't make money without money. At the Green Building Council we disagree!

By making a few small changes to your behaviour and home you can start to save money.

IT'S CALLED SMARTHOMING

and means you'll be living smarter.

2. SMARTHOMING: SIMPLE WAYS TO START SAVING

Smarthoming is using no-cost practices that ensure you have more cash in your pocket every month.

EACH TIME YOU APPLY A SMARTHOME TIP

you save money and take one step closer to realising your financial dreams.

3. HOW TO GET STARTED

One of the things you can do is to switch off appliances every time you leave a room.

This not only reduces harm to the environment but also leaves a little bit more cash in your wallet.

If you take shorter showers, you ask less of the planet's resources and again, put more money back in your pocket.

4. TAKE YOUR SAVINGS UP A NOTCH!

Set your washing machine to use only cold water and avoid tumble drying.

PAY CLOSER ATTENTION TO YOUR IRONING

You don't need to iron absolutely every item that gets washed, as some can simply be packed away while others require little ironing.

5. GET READY TO UPGRADE YOUR LIFE!

By applying these tips, you can save on electricity and water and have spare cash to spend on something you've always wanted. By making your home a SMARTHOME you can start saving to upgrade your life!
